For an interdisciplinary research project on multimodal, distributed mobile multimedia applications, we are looking for a

Research Staff Member

(PhD student)

with a strong interest in one or more of the following areas: **mobile (app) development**, **game and software design and development**, and **distributed multimedia systems**. For this position, candidates should hold a M.Sc. or equivalent with a focus on multimedia systems. The candidate should also have strong programming and writing skills. Experience in multimedia programming and game development and/or computer graphics are appreciated.

This Ph.D. position is part of the CROSMOS project, a joint project of media communication, information technologies and multimedia communications departments of Klagenfurt University.

We offer competitive salaries (€ 2.562 gross per month / € 35.868 gross per year -- according to Austrian wage agreement for university staff) coupled with a nice working atmosphere in an international research team in beautiful southern Austria. Our business language is English. The Institute for Information Technology is part of the Faculty of Technical Studies at the Alpen-Adria Universität Klagenfurt and has strong collaborations with national and international partners in industry and academia.

Your application should include a letter of interest, curriculum vitae, academic certificates and courses, list of publications and contact details of two references. **Please submit your application as a single PDF file to Dr. Mathias Lux, mlux@itec.uni-klu.ac.at**

Klagenfurt University is committed to increasing representation of female and international staff members and particularly encourages applications from such candidates.
