

VK Multimedia Information Systems

Mathias Lux, mlux@itec.aau.at

Agenda

- Topics & goals
- Modalities & examination
- Schedule
- What is **information**?
- What are **information systems**?
- The information overload
- Current state in MuMe consumption

C.V.

- Technische Mathematik an der TU Graz
- Doktoratsstudium Telematik
- 98-01 Entwicklung von Web-Applikationen
- 01-06 Know-Center in Graz (KPlus)
- 05-06 Ass. am KMI / TU Graz
- 06-14 Ass. am ITEC / Uni Klagenfurt
- 14- .. Assoc. Prof. ITEC / Uni Klagenfurt

Course Topics

Multimedia Databases

Multimedia Management

Social Media Sharing

Video Analysis

Metadata

Data Mining

Digital Audio

Information Retrieval

Social Networks

Image Processing

Retrieval Evaluation

Goals I

Basic (and a little more) understanding of

- Multimedia retrieval
- Multimedia analysis
 - images in the spatial domain
 - audio & video processing
- Multimedia databases & meta data

Goals II

- Overview on state of the art
 - who is who in research
 - what to read if I want to know more?
 - available tools in development
 - de facto & de jure standards

Goals III

- Providing a solid base for
 - further research,
 - consulting and
 - practical development
- in the area of
 - multimedia information retrieval
 - multimedia information systems
- and: hands on experience!

Modalities

Multimedia Information Systems ist eine
„prüfungsimmanente Lehrveranstaltung“

A positive grade is based on

- some few mandatory exercises / readings
- ongoing collaboration
- and a project (implementation & presentation)

Modalities

Projects are

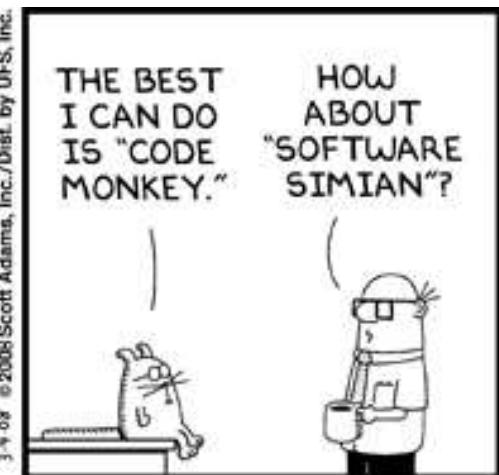

- Practical implementations of MMIS / MIR
- Research work & studies

Projects topics will be

- ... assigned after Easter holidays
- ... assigned to groups or individual students

Team Work

- Preferably teams of 2 students
- TEAM = „Toll-Ein-Anderer-Machts“ ?

Projects

- **Topics:**
 - LIRE
 - Applications using LIRE
 - Extensions to LIRE
 - LIRE Solr
 - Mobile apps using LIRE Solr
 - ...
 - Anything with MIR
 - Tracking the use of assets in documents
 - Finding duplicates in photo streams
 - Media monitoring
 - ...

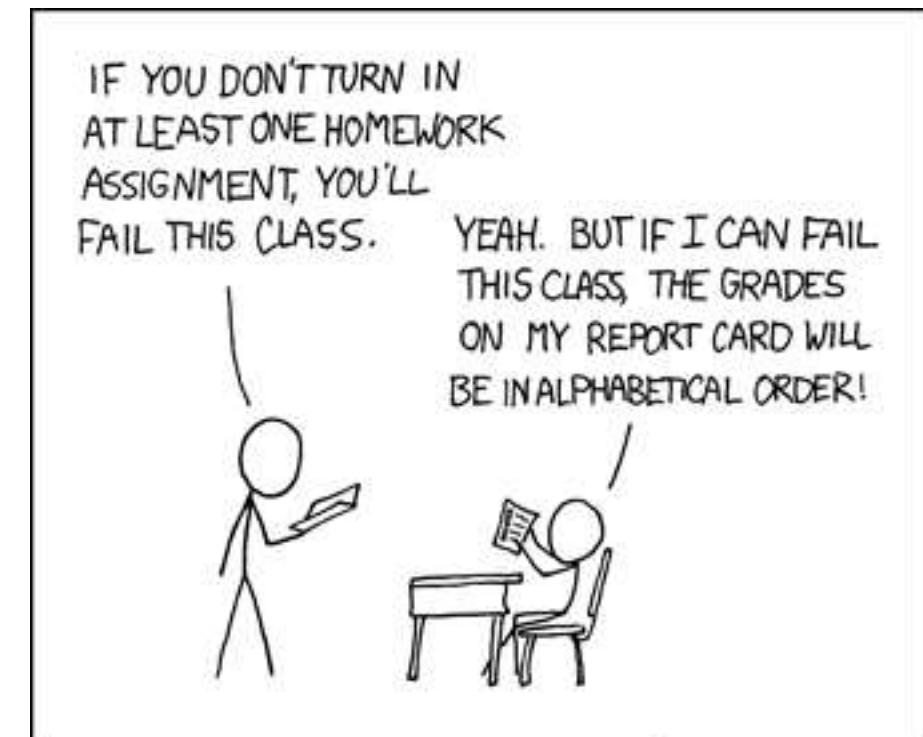

Grades

Grade is derived from:

- 1/3 Exercises
 - Pen & paper
 - Readings
- 1/3 Project
 - Implementation
- 1/3 Presentation

<http://www.xkcd.com>

Schedule

- See web page

Questions?

Any questions regarding organizational issues left?

Preliminaries

- What is research?

Agenda

- What is **information**?
- What are **information systems**?
- The information overload
- Current state in MuMe consumption

What is Information?

Definition of Aamondt and Nygard (1995) :

- Data
- Information
- Knowledge

Aamodt, A. & Nygard, M. "Different roles and mutual dependencies of data, information, and knowledge - an AI perspective on their integration" Data Knowl. Eng., Elsevier Science Publishers B. V., 1995, 16, 191-222

Data

Aamondt und Nygard (1995)

Data are syntactic entities

- Patterns without meaning
- Input to an interpretation process

Example:

- Bits & Bytes of a JPEG encoded image

Information

Aamondt und Nygard (1995)

Information is interpreted data

- Information is data with meaning
- Output from interpretation
- Input to knowledge based process

Example:

- Decoded (and displayed) JPEG image

Knowledge

Aamondt und Nygard (1995)

Knowledge is learned information

- Incorporated in an agents (software / human) reasoning resources
- Ready for active use
- Output of learning process

Example:

- There is a dog shown on the JPEG image

What is Information?

Definition of Zeleny (1987):

- Data
- Information
- Knowledge
- Wisdom

Zeleny, M. "Management Support Systems: Towards Integrated Knowledge Management" Human Systems Management, 1987, 7, 59-70

What is Information?

TON CHARLEY

Image originally published in the December 1982 issue of THE FUTURIST, taken from http://www-personal.si.umich.edu/~nsharma/dikw_origin.htm

The DIKW Hierarchy

Definition of the DIKW levels:

Data	Know nothing
Information	Know what
Knowledge	Know how
Wisdom	Know why

Agenda

- What is **information**?
- What are **information systems**?
- Information overload
- Current state in MuMe consumption

What are Information Systems?

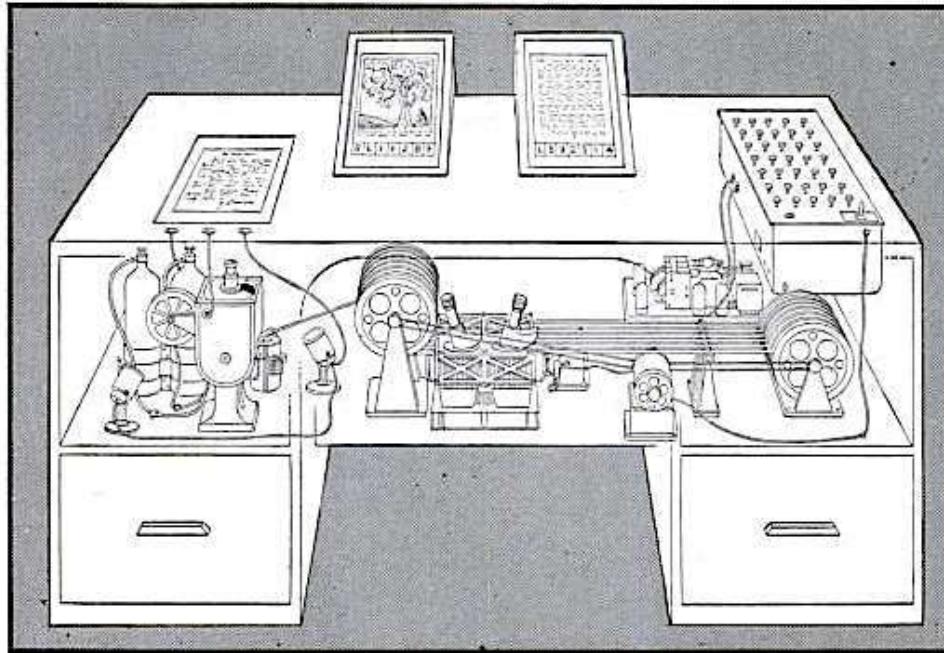

- **Systems for handling information**
 - collect, store & organize
 - process, disseminate & transmit
- **Three main parts in these systems**
 - people,
 - machines &
 - methods

Memory Extender - Vannevar Bush

- Published in 1945 (Atlantic Monthly)
- An electromechanical device for
 - viewing books and films
 - adding information and comments
 - interlinking information
 - browsing links
- MEMEX is an early hypertext system

MEMEX

MEMEX in the form of a desk would instantly bring files and material on any subject to the operator's fingertips. Slanting translucent viewing screens magnify supermicro-film filed by code numbers. At left is a mechanism which automatically photographs longhand notes, pictures and letters, then files them in the desk for future reference.

AS WE MAY THINK CONTINUED

Multimedia IS

- Focus on multimedia data & meta data
 - storage, transmission
 - search & retrieval
 - organization & dissemination
- Media types
 - textual / visual / auditory / haptic / olfactory
 - rastered or rendered / modelled
 - Midi vs. MP3
 - VRML vs. PNG
 - LASER vs. MPEG-2

Agenda

- What is information?
- What are information systems?
- Information overload
- Current state in MuMe consumption

YouTube

(Mar 2013)

- Over 800 million unique users visit YouTube each month
- Over 4 billion hours of video are watched each month on YouTube
- 72 hours of video are uploaded to YouTube every minute
- 70% of YouTube traffic comes from outside the US

Source: <http://www.youtube.com>

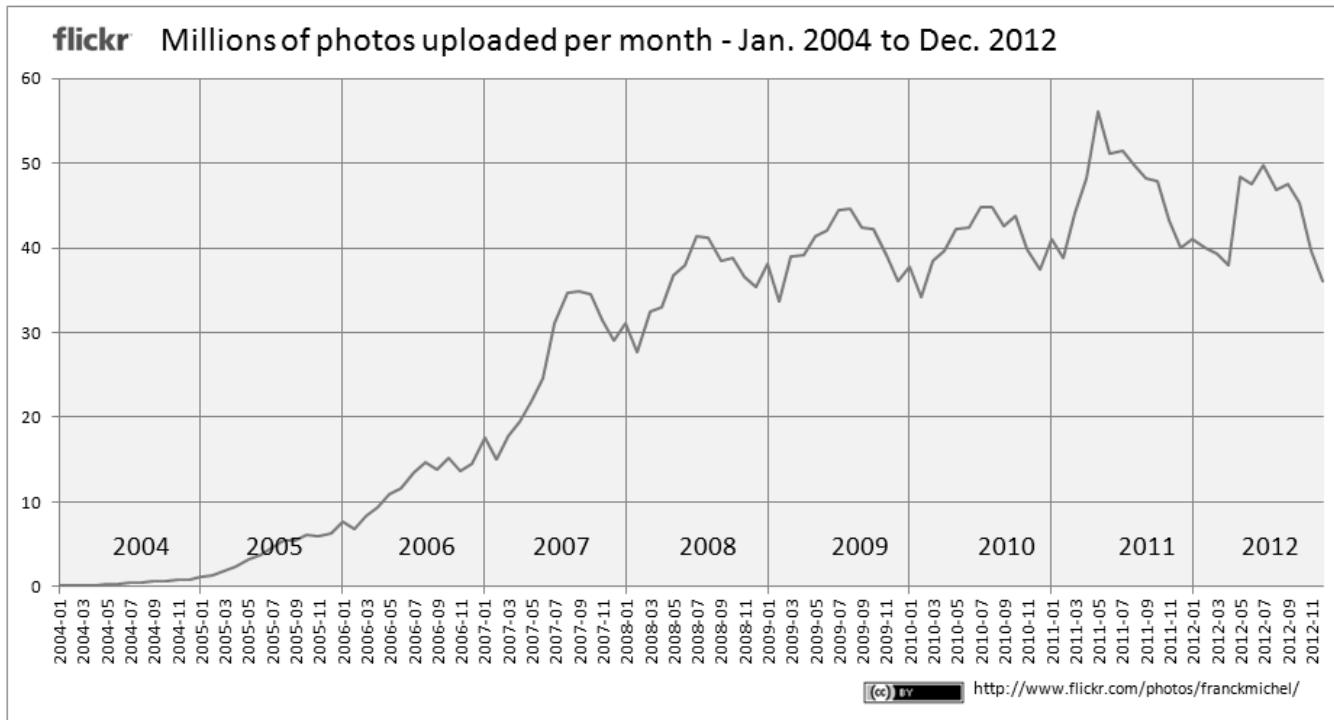

fotocommunity

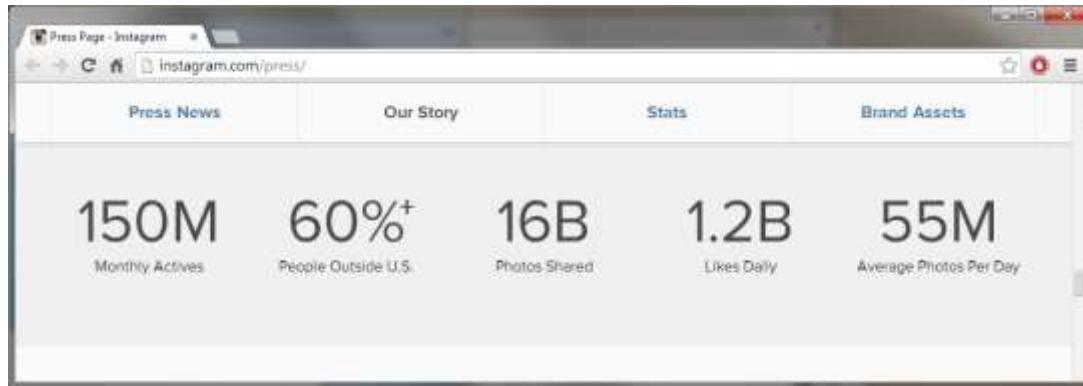

- Each day
 - 9,300 new photo uploads
 - 60,000 photo reviews (comments)
 - 450 new amateur photographers
- In the data base
 - 170 Million photo reviews (comments)
 - 20 million photos
 - 1,000,000 members

Source: <http://www.fotocommunity.net/en/about-us/the-fotocommunities.html>, 2014

How many photos are uploaded to Flickr every day, month, year?

Instagram

2014

2015

Src. <http://instagram.com/press/>, 2014-03-04 & 2015-03-03

Facebook

(Aug. 2012)

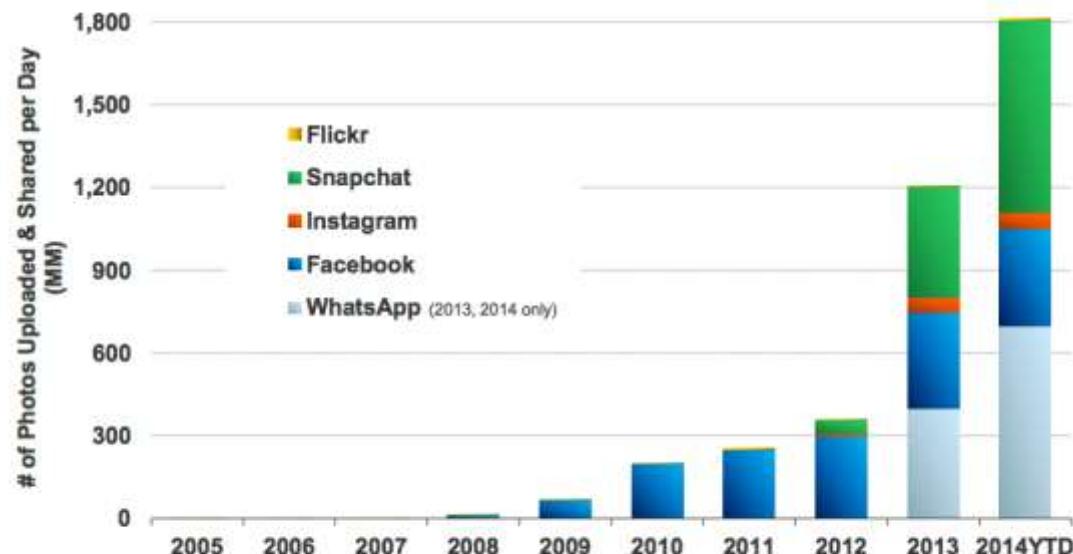

- Facebook processes more than 500 TB of data daily
- 2.7 billion likes made daily on and off of the Facebook site
- 300 million photos uploaded / day
- 1.1 billion photos uploaded on New Years Day & Eve 2012
- 70,000 queries executed by people and automated systems

up to 2014 ...

Photos Alone = 1.8B+ Uploaded & Shared Per Day...
Growth Remains Robust as New Real-Time Platforms Emerge

Daily Number of Photos Uploaded & Shared on Select Platforms,
2005 – 2014YTD

@KPCB

Source: KPCB estimates based on publicly disclosed company data, 2014 YTD data per latest as of 5/14.

Your Tasks ...

- Reading 01: Introduction to Rijksbergen's book
 - Data vs. Information
- Reading 02: Get started with Lire
 - Download the book (7z, [REDACTED])
 - Read chapter 1 and use chapter 1.2

Thanks ...

... for your attention!
